

# Quasar Reach

## Drop Ceiling Skylights

before

after

For about the cost of a nice light fixture, we can bring the soft light of the sun into virtually any space in your home. Installed on any roof surface in under two hours, you will quickly realize the cost benefits of a tubular skylight over incandescent and even traditional skylights. In addition to the free daytime operating cost, the Quasar Reach Tubular Skylight does not contribute to heat loss or gain, unlike standard framed-in skylights.

Prismatic diffuser is slightly arced to scatter light evenly and eliminate hot spots. It sits in a sleek, Euro-styled light fixture that matches any home decor.
